Hôtel de Verbier Spa Ritual Candle Massage

For the ultimate cocooning experience, we use the 100% natural candle made with soya and beeswax for a moisturizing, relaxing massage. We recommend the 80 min version of this luxury treatment for the full silky, regenerating effect for your muscles as well as your skin.

80 minutes 205 CHF

Hot Stone Massage

This treatment uses smooth, heated stones on specific points of your body during your massage. The localised heat and weight of the stones warms and relaxes the muscles, allowing the therapist to apply deeper pressure on these areas without causing discomfort. This is a strong, yet relaxing treatment, ideal for the mountains.

50 minutes 150 CHF - 80 minutes 210 CHF

Bamboo Massage

Bamboo Massage therapy: Originating in Asia, this wonderful therapy is great to have if you like deep tissue work. Bamboo massage therapy utilises the technique of deep tissue massage, but with a firmer and more extensive surface area pressure to reach knots formed by lactic acid and other tension-causing wastes. After starting with traditional massage to warm up the body, the heated bamboo sticks are rolled over the muscles to break down tension and stretch tight muscles. This is super effective for those who like strong massage, ideal as an apres ski treatment. It will leave you feeling relaxed and energised and with a sense that your muscles have been stretched, warmed and elongated.

50 minutes 150 CHF - 80 minutes 210 CHF

Hôtel de Verbier Mountain Massage

Our Signature HDV sports massage will rejuvenate and restore. This is a strong full body massage working deeply to relieve tense muscles, as well as releasing the connective tissue and fascia. We work on the whole body for ultimate balance, but can also customize the massage to focus on specific areas at request. Whether you have been sitting too long at a desk or have skied all day, the Mountain Massage will revive you to be in your best condition.

50 minutes 140 CHF - 80 minutes 195 CHF

Skiers Leg Reviver

Après-ski treatment specifically designed to relax the muscles after a day on the slopes. Focusing on lower back, hips, legs and feet, using a combination of techniques to bring the lower half of the body back to life and help you back up the mountain the next day.
