Bamboo Massage

Bamboo Massage therapy: Originating in Asia, this wonderful therapy is great to have if you like deep tissue work. Bamboo massage therapy utilises the technique of deep tissue massage, but with a firmer and more extensive surface area pressure to reach knots formed by lactic acid and other tension-causing wastes. After starting with traditional massage to warm up the body, the heated bamboo sticks are rolled over the muscles to break down tension and stretch tight muscles. This is super effective for those who like strong massage, ideal as an apres ski treatment. It will leave you feeling relaxed and energised and with a sense that your muscles have been stretched, warmed and elongated.

50 minutes 150 CHF – 80 minutes 210 CHF

Hot Stone Massage

This treatment uses smooth, heated stones on specific points of your body during your massage. The localised heat and weight of the stones warms and relaxes the muscles, allowing the therapist to apply deeper pressure on these areas without causing discomfort. This is a strong, yet relaxing treatment, ideal for the mountains.

50 minutes 150 CHF – 80 minutes 210 CHF

Reflexology

Our relaxing reflexology treatment helps to restore balance and harmony to the body. Reflexology follows the Chinese theory that the feet are a complete representation of the entire body and by stimulating specific reflex points through gentle manipulation and pressure, reflexology can help to improve circulation, eliminate toxins, reduce stress and encourage the body's natural healing abilities, leaving you feeling calm and refreshed.
